CATARRH Nasal

ELLY'S CREAM BALM cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly. **ELLY'S CREAM BALM** is placed into the nostrils and the membrane is soothed and a cure follows. It is not drying—does not produce sneezing. Large size, 50¢ at drug stores or by mail. Trial size, 10 cents by mail. **ELLY BROTHERS, 56 Warren Street, New York.**

FOR OVER FIFTY YEARS. AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

OYSTER DEALERS. FINE OYSTERS.

NOTICE.—To the people who love SALT WATER OYSTERS with the moss on the shell and the rich and delicious flavor that is so characteristic of the oyster house of J. M. YOUNG. TOBACCO AND CIGARS.

Brands May Come

and brands may go but the famous old "Plantation"

goes on forever. Years ago, when we first put this brand upon the market, we determined there should be one firm which would make an honest effort to keep its product up to a certain standard, and the popularity of our "Plantation" brand is evidence that we have succeeded. The stock is of the same quality, and the blend exact. The same care is exercised in the manufacture of our entire output.

Every Plantation cigar is stamped with the firm name of

Entered at the Postoffice at Alexandria, Virginia, as second-class matter.

MISCELLANEOUS. The output of anthracite coal for the year is estimated at 50,000,000 tons, being approximately 10,000,000 tons above that of 1900.

The war being waged by the Rockefeller and Rothchilds, representing the Standard Oil Trust, against the Copper Trust has caused consternation among the unfortunate holders of copper stock.

After three days of steady playing at poker for the biggest stakes seen in years in Walla Walla, Wash., in that part of the Northwest, Nicholas Schneider was forced to quit the game, penniless, having lost \$50,000 to John Kromer.

Portraits of Henry Clay and Patrick Henry were yesterday evening presented to Randolph-Macon College, at Ashland, Hanover, the county in which this college is located, was the birthplace of both of these distinguished men.

President Roosevelt does not want a new White House or any additions to the old White House, but only a new building nearby which he can use for entertainments and for business, leaving the White House free to be used simply as a residence.

The coinage at the United States mints during the fiscal year ended June 30, 1901, amounted to 170,989,182 pieces valued at \$130,340,781. The director of the mint suggests that the limit of the stock of subsidiary coin should be increased to \$120,000,000.

The government, it is said, is to coin a new 3 cent piece. The new coin is to be of nickel, and its radical difference from all other coins with Uncle Sam's mint mark on them lies in the fact that it will have a hole in the center. It is the supposition that this hole in the middle will enable the hurried handler of the coin to detect its value by the sense of feeling.

At a meeting of prominent citizens held in Atlanta, Ga., a few days ago a movement was inaugurated, the successful culmination of which means the enrichment of the South by more than \$100,000,000 for the purpose of educating the people. The object of the plan is to secure the return from the United States government of the money collected from the southern people during the period of reconstruction as cotton tax, and also the fund derived from the sale of captured and abandoned property during and immediately following the civil war.

ADVERTISING A CIRCUS.—The advertising of a circus is one of its most interesting features. It is said that advance agents annually paste or distribute between ten and twelve million pieces of advertising paper. It is the method by which this vast amount of paper is spread to the public gaze that is most interesting. The advertising of a circus is divided between three advance cars. One of these travels three weeks to a day ahead of the show, the second one is two weeks ahead and the third car goes one week ahead. Each crew has a different task to perform, and a vast amount of labor is involved. The first car crew, which is composed of about thirty bill-posters and a manager, bills the towns and the country roads leading out of the point where the show is to be given. Several lithographers and programmers decorate the windows of business places with rich and attractive lithographs and visit a great many residences and leave a sixteen-page courier containing elegant half-tone drawings of prominent circus features.

A week later the city is visited by the second car, sometimes known as the "excursion" car. Men are sent on every outgoing train to bill the smaller towns on the railroads for thirty to forty miles around. They have completed their task by dusk and then return to the central point in time to catch their car, which then departs for the next city. One week before the date of the show the third car makes its appearance to freshen the paper display wherever it has been damaged by the weather elements, and to complete whatever work the other crews may have overlooked in their task.

In every city several teams are used to cover the country routes and the city billboards. Paste is manufactured on the car, which is provided with an engine and boiler. Ten barrels of flour are consumed daily by each car for paste.

PATENTS GRANTED.—The following patents granted to residents of Virginia are reported by Davis & Davis Washington patent attorneys: Double-headed feed valve for fluid pressure brakes, Lorenzo D. Gillett, James S. Pearce, George Holmes, and Calvin Staley, Roanoke, assignors of one-fifth to James C. Cassell, Roanoke; puzzle, John M. Rodgers, Roanoke; loom, Fannie J. Bozoe, Springfield, and machine for stemming and cleaning peanuts or green peas, Benjamin Hicks, Vicksville.

Kodol Digests what you Eat

Dyspepsia Cure

A powerful engine can't be run with a weak boiler; and you can't expect to keep up the wear and strain of an active life with a weak stomach. Our boilers, or rather our stomachs, can't be replaced, and we cannot stop the human machinery while making repairs. But when the stomach is unable to digest enough food to keep the body strong, we can use such a preparation as Kodol Dyspepsia Cure. It digests what you eat, so that you can eat all the good food you want, without any distress after eating. "After forty years of suffering from indigestion, a few bottles of Kodol Dyspepsia Cure cured me."—Amel Bell, Fredonia, Pa.

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The \$1 bottle contains 24 times the 50c size.

When you need a soothing and healing application for piles, sores and skin diseases, use **DeWitt's Witch Hazel SALVE**. Beware of counterfeits. Sold by E. S. Leadbeater & Sons.

Saved His Life.

"I wish to say that I feel I owe my life to Kodol Dyspepsia Cure," writes H. G. Chatterton of Hayfield, Minn. "For three years I was troubled with dyspepsia so that I could hold nothing on my stomach. Many times I was unable to retain a morsel of food. Finally I was confined to my bed. Doctor said I could not live. I read one of your advertisements on Kodol Dyspepsia Cure and thought it fit my case and commenced its use. I began to improve from the first bottle. Now I am cured and recommend it to all." Digests your food. Cures all stomach troubles. For sale by E. S. Leadbeater & Sons.
